## Wondering Why To Attend?

things to do

- PLAY** our popular blackjack table!
- ATTEND** our 2 roofing/PV seminars
- QUOTE** for Roofing and/or PV systems
- ENTER** our grand prize drawing!
- SIGN UP** for a complimentary roof assessment - tradeshow sign ups will receive a FREE 60 point inspection.

get answers to our TOP 5 trending questions

- If my roof leaks (w/PV) who is responsible?
- What energy efficient roofing is available?
- I'm not sure to repair or replace an existing roof?
- Does a PV system affect my roof warranty?
- What about solar shingles vs. roof mounted PV panels?

POST a FB comment to our page for a FREE TOTE at the show

Generally, a roof system on its own doesn't fail. Likewise a solar electric PV system on its own usually won't fail. It is the integration of the two that is the crucial point. That's what we warrant. That is what we stand behind. Roofers know better than anyone how to waterproof rooftop penetrations - it's our job! Through a strategic partnership with **Greenpath Technologies Inc.** - a local leading solar integrator here in the islands we are able to offer you ONE POINT OF ACCOUNTABILITY and ONE WARRANTY for a ROOF + SOLAR ELECTRIC BIPV/PV installation for all commercial, industrial, government, or residential buildings. **Spend Smart.**

**GREEN**  **PATH**
